

R&D Policy- Plan

Policy statement

The Research and Development (R&D) Policy of Hospital Services Consultancy Corporation India Limited (HSCC) is

- ❖ To provide a framework for the development of a research culture within HSCC, to improve research performance and to achieve highquality technology outputs.
- ❖ To promote R&D activities as complimentary to construction activities so as to improve the quality of work and sustainability.
- ❖ To contribute towards creation of wealth and well being of the company and further the construction sector as a whole.
- ❖ To be supportive of the organisation's aspiration to be a world class Construction Company.

Objectives

1. This policy aims to develop an industrial ethos which generates activities that promote innovative techniques.
2. This policy aims to establish an integrated and co-ordinated approach towards research and development.
3. This policy aims to provide a research management structure which will support and facilitate research activities.
4. This policy aims to manage the development of research centre as a coordinating canter by identifying and building upon HSCC's existing and emerging research strengths.
5. This policy aims to foster collaborative research with other research bodies of the industries and institutions.
6. This policy aims to establish HSCC to be a referral centre for research in construction sector.
7. This policy aims to nurture R&D initiatives through growth andprovision of awards/rewards and better infrastructural support.
